Purpose
Throughout his distinguished career, Dr. Thomas R. Camp (1895–1971) advanced state-of-the-art engineering and technology in the drinking water field. His early years were spent as a practicing engineer, followed by a professorship at the Massachusetts Institute of Technology. Subsequently, he became co-founder and senior partner of Camp Dresser & McKee, Inc., the international environmental consulting firm. During his career he displayed a relentless passion for learning and research. The water treatment processes that Dr. Camp developed for mixing, flocculation and sedimentation set standards for the industry. Other contributions included the advancement of dual-media filters, porous underdrains, and direct filtration of municipal water supplies. Camp Dresser & McKee created the Thomas R. Camp Scholarship in honor of the contributions of Dr. Camp to support and encourage outstanding graduate students conducting applied research in the drinking water field.

Eligibility
You are eligible to apply if you are pursuing a graduate degree (either masters or doctoral) at an institution of higher education located in Canada, Guam, Puerto Rico, Mexico or the United States. Applicants should anticipate completion of their degree requirements no sooner than December 1, 2010. Applicants are considered without regard to color, gender, race, creed or country of origin.

Time Schedule
Completed applications for the Thomas R. Camp Scholarship must be received no later than January 15, 2010. The scholarship recipient will be notified by April 1, 2010 and support will be available for the fall of 2010.

For Additional Information, Contact:

Email: lmoody@awwa.org

Entry Requirements
Applicants must submit:
- Official application form
- A 2 page résumé (that includes educational history)
- Official transcripts of all university education
- Official GRE scores sent directly from GRE Testing Center (quantitative, analytical, and verbal), or a photocopy of the official report†.
- Three letters of recommendation (one of which must be from the academic or research advisor).
- A 1 page statement of educational plans and career objectives demonstrating or declaring an interest in the drinking water field
- A 2 to 3 page proposed plan of research

† For information on taking the GRE, visit their website at http://www.gre.org. Official GRE Scores may be sent directly to AWWA by calling 1-888-473-7267. AWWA's institutional code is 0003. The GRE requirement will be waived if the applicant’s university does not require the GRE for admission. A signed statement from the applicant indicating this must be included in the application package. However, the applicant is encouraged to submit GRE scores even if they are not required by the applicant’s university for admission.

Support Provided
The scholarship, awarded annually, will provide a one-time grant of $5,000 to the most outstanding applicant. The scholarship recipient will be publicly recognized at the Annual Conference of the American Water Works Association held in mid-June of 2010.

Selection Criteria
A selection committee from the American Water Works Association’s University Student Activities Committee, and Camp Dresser and McKee Inc. will evaluate the applicants. They will select the scholarship recipient based on the excellence of his or her academic record and potential to provide leadership in applied research and consulting in the drinking water field.

The American Water Works Association reserves the right not to award the scholarship for any year in which an outstanding candidate is not identified.

ATTACH THE FOLLOWING TO THIS APPLICATION FORM

• A 2 page résumé that includes all colleges and universities attended, dates, major fields of study, grade point averages, and degrees received
• Official transcripts of all university education
• Official GRE scores (quantitative, verbal, and analytical), or a photocopy of the official report†
• Three letters of recommendation (one of which must be from the academic or research advisor)
• A 1 page statement of educational plans and career objectives demonstrating or declaring an interest in the drinking water field, especially consulting.
• A proposed plan of research – maximum of 3 pages of text plus supporting figures

† The GRE requirement will be waived if the applicant’s university does not require the GRE for admission. A signed statement from the applicant indicating this must be included in the application package. However, the applicant is encouraged to submit GRE scores even if they are not required by the applicant’s university for admission.

ALL APPLICATION MATERIALS (except GRE scores if sent from the GRE office) MUST BE SUBMITTED AS A SINGLE PACKAGE AND RECEIVED BY THE DEADLINE FOR CONSIDERATION.

CERTIFICATION

I certify that the information included in this application is true and complete to the best of my knowledge.
