**Princeton Review Again Ranks Fisher International MBA at MIIS
Among the Best MBA Programs in the Nation**

Rankings are Based on Princeton Review Analysis of Curriculum, Student Input

Monterey, CA—The Fisher International MBA program at the [Monterey Institute of International Studies](#) has once again been recognized as an outstanding business school program by The Princeton Review. The education services company features the school in the new 2012 edition of its book, *The Best 294 Business Schools* (Random House / Princeton Review).

"We're delighted to see the Fisher International MBA program at MIIS receive this strong endorsement from The Princeton Review," commented Fisher International MBA Program Chair Fredric Kropp. "It's especially rewarding since the rankings were developed with significant input from current and recently graduated students."

According to Robert Franek, Princeton Review Senior VP-Publisher, "We recommend the Fisher International MBA program at the Monterey Institute of International Studies to readers of our book and users of our site as one of the best institutions they could attend to earn an MBA. We chose the 294 business schools in this book based on our high opinion of their academic programs and offerings, as well as our review of institutional data we collect from the schools. We also strongly consider the candid opinions of students attending the schools who rate and report on their campus experiences at their schools on our survey for the book."

"The Best 294 Business Schools: 2012 Edition" has two-page profiles of the schools with write-ups on their academics, student life, and admissions, plus ratings for their academics, selectivity, and career placement services. In the profile on the Monterey Institute, the Princeton Review editors noted that the school's diverse student body, with 38 percent international students and 42 percent women, "students love the international perspective, the size for its adaptability and personal attention, the innovative nature of the curriculum, and the focus on sustainability." The Fisher International MBA Program has been ranked numerous times by the Princeton Review and Entrepreneur Magazine as one of the top graduate business programs committed to success in entrepreneurial endeavors.
